### Estimated Value:

- US\$ 5.6 billion  
per IPSOS market research

### Est timeline to market:

- 3 to 6 months after funding

### Market Range:

- Phase 1: North America, India & Middle East
- Phase 2: Europe, Russia & Australia

### Net Assets:

- IP- Global 58 therapeutic product patents in US, CA, UK, EU, Africa & Asia
- Global Clinical Efficacy & Safety studies conducted on 25000+ humans for 12 years 100% EFFICACY & Safety Studies Regulatory filling and registration in select nations
- Functional Pilot Plant to supply to Govt of India under National Health Program, Govt of India

### Capabilities:

- International reach

### Financial Information Seeking:

- Seeking US\$ 60 million (40 for North America, 20 for India)

### Use of funds:

- Global scale manufacturing Facilities in US & India, IP & Tech Transfer

### Target Customer:

- Family Projects
- Legacy Projects
- 10% quarterly dividends or
- 15% preferred

## EXECUTIVE SUMMARY

### OVERVIEW

Our goal is to help billions of people worldwide via safe, affordable & effective treatment & prevention of all communicable diseases such as Wuhan Virus Covid-19 pandemic. Our clinically proven, broad spectrum, anti-viral immunomodulator is globally tested with 100% efficacy & safety for 12 years on 25000+ humans.

The product consists of a patented new molecule of submicroscopic nonapeptides which have been isolated from bovine colostrum via patented Ultra Nano filtration Technology for first time.

Our Vision: What causes illness and how to reach solutions in providing healthcare in every nook and corner of the universe via our Immunity Product, proprietary telemedicine & Lab on Chip for mass screening with emergency health alerts.

### STRATEGY

Bringing the Product to the Markets in North America, Middle Est and Asia to begin with and export to UK, EU, RUSSIA, AUS from these counties with a differentiator from other COVID treatments/vaccines offered by Gilead, Pfizer, Moderna, Oxford Astra Zeneca, Sputnik & India under temporary FDA approvals which can be withdrawn.

### MARKET PROBLEMS

Global pandemics like Wuhan COVID-19, Bird Flu, Swine Flu, HIV & chronic immunity disorders. People with weak immunity are at higher risk of getting severely sick from Covid-19.

### SOLUTION

Our product made from mother's 1st milk /bovine colostrum has nano informational peptides that help people lead longer & healthier lives by naturally building the body's own immune system, aiding in prevention & cure of all communicable & immunity diseases along with sustainable malnutrition eradication for bottom of the pyramid segment globally.

### OPPORTUNITY

We propose to use 21st Century Nanotechnology Innovation in improving health and wellbeing of 8 billion people by marketing & distribution of 8 different formulations viz. oral gargle, MMS, powder & liquid sachets.

Opportunity for family funds via legacy projects, 10% quarterly dividends or 15% preferred shareholding along with exit via Nasdaq, LSE & Bombay Stock Exchange listings.

Projected revenue US\$ 1.45 billion globally with PAT EBITDA US\$ 566 million, based on real time market research conducted at US\$2mn cost by IPSOS USA by Glaxo on 800 families from India, UK & USA with ITP score of 97-100% for two concepts that respondents liked and were ready to pay for our Product, both on standalone basis & as an additive.
